**COMMENTS ON STATEMENT OF REASONS  
FOR ALLOWANCE UNDER 37 CFR §1.104(E)**

Mail Stop ISSUE FEE  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Applicant has received the Examiner's Statement of Reasons for Allowance with the October 5, 2004 Notices of Allowance and Allowability regarding the above-identified application. Entry of the Statement into the record should not be construed as any agreement with or acquiescence in the reasoning stated by the Examiner. Each of the claims stands on its own merits and is patentable because of the combination it recites and not because of the presence or absence of any one particular element.

sf-1831682

Application No.: 09/964,211

2

Docket No.: 333772000101

In particular, Applicants respectfully propose that the Statement of Reasons for Allowance would more accurately reflect the current claims if it read as follows:

"The prior art of record, taken alone or in combination, fail to teach, anticipate, suggest or render obvious the following inventions recited in the allowed independent claims:

With respect to claim 1, a method for testing devices carried by at least two test trays, wherein each tray carries at least one device, the method comprising: transporting a first tray along a first transport path to a first test position; transporting a second tray along a second transport path to a second test position; testing at least one device on the first tray at the first test position; and testing at least one device on the second tray at the second test position.

With respect to claim 22, a method for testing devices carried by at least two test trays, wherein each tray carries at least one device, the method comprising: transporting a first tray to a first test position; transporting a second tray, in parallel to the first tray, to a second test position; testing at least one device on the first tray at the first test position; and testing at least one device on the second tray at the second test position.

With respect to claim 44, a system for testing devices carried by at least two test trays, wherein each tray carries at least one device, the system comprising: a first transport path for transporting a first tray to a first test position; a second transport path for transporting a second tray to a second test position; and a tester for testing at least one device on the first tray at the first test position, and for testing at least one device on the second tray at the second test position.

sf-1831682

Application No.: 09/964,211

3

Docket No.: 333772000101

With respect to claim 65, a system for testing devices carried by at least two test trays, wherein each tray carries at least one device, the system comprising: at least one transport path for transporting a first tray and a second tray in parallel to a first test position and a second test position, respectively; and a tester for testing at least one device on the first tray at the first test position, and for testing at least one device on the second tray at the second test position.

Consequently, independent claims 1, 22, 44 and 65 are allowed over the prior art of record. Claims 2-21, 23-43, 45-64 and 66-87 directly or indirectly depend from the independent claims, and therefore are also allowable."

The above amended Statement more accurately reflects the language of the current claims. For example, the independent claims recite that each test tray carries at least one device, whereas the Examiner's Statement states that, with respect to claims 1 and 44, each test tray carries one device. Also, with respect to claims 1 and 44, the Examiner states that those claims recite a tester, whereas method claim 1 does not explicitly recite a tester.

If the Examiner agrees with the proposed language, Applicant respectfully requests that the Examiner issue a Supplemental Statement of Reasons for Allowance.

The Examiner's Statement was not prepared by Applicant and only contains the Examiner's possible positions in one or more reasons for allowability. Thus, any interpretation with respect to the Examiner's Statement of Reasons for Allowance should not be imputed to the Applicant.

In the event the U.S. Patent and Trademark Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing
